

DANYLO BOSAK

778-707-6423 | Burnaby, BC | bosakdanila2007@gmail.com

HIGHLIGHTS

- CAD & CAM, Soldering, PCB making, CNC Machining, Circuit Analysis
- Experienced with Electrical Construction, CEC, 1 phase motors, hand and power tools
- Fusion 360, AutoCAD, KiCAD, Quartus, Arduino, Cura, Prusa Slicer, LTspice, Verilog, C Programming

EDUCATION

Bachelor of Electrical and Computer Engineering | British Columbia Institute of Technology | Sep 2025-(May 2029)

- Built, analyzed analog and digital logic circuits using metering equipment, KCL, KVL, Thevenin and Norton laws
- Build and analyzed single phase AC Circuits
- Learned how to use BJT's and MOSFETs as electronic switches and amplifiers
- Calculated steady state voltage and current values for RC and RL circuits
- Used an Oscilloscope for troubleshooting and measurements in AC Circuits
- Competed in Western Engineering Competition 2026 in Re-Engineering category

Construction Electrician ITA Level 1 | Camosun College (Ace-It at Byrne Creek Secondary) | Sep 2024 – May 2025

- Calculated ampacity for wires and matched them with proper wire gauge
- Used CEC for finding different construction rules as well as making house calculations
- Completed roughing and finishing jobs at a construction site
- Wired a 1 phase AC motor control circuit

Dogwood Diploma | Byrne Creek Secondary School | Burnaby, BC | Graduated Jun 2025

- “FIRST” Robotics Team 7688 - Manufacturing President (Canadian Pacific Regional Competitor 2023, 2024, 2025)
– Designed complex game piece intake system, designed an elevator system. Organized workshops to teach new members CAD skills and manufacturing skills. Performed on the field maintenance during the competition.
- Designed the instructions for creating custom PCBs using FeCl solution etching method; ran machines at different settings to come up with the settings for the equipment we had. This allowed students to utilize unused equipment for their projects
- “Fix and Ride” Bike Club - Founder & President – Contacted local bike shops for old bikes; organized weekly bike repair and assembly classes for students, who after got to keep the bike they fixed; gave away 20 bikes over 2 years.

WORK EXPERIENCE

Soldering Technician | Head(ame) | Vancouver | Mar 2026-Present

- Headphone driver soldering, impedance testing, frequency response testing and matching
- 3D printing, QC, QA, keeping inventory
- Headphone and kit assembly, order fulfillment, shipping

Program Leader | City of Burnaby | Burnaby | Oct 2023-Present

- Plan, organize, and lead recreation activities such as multi sports, arts & crafts, games, Lego, for kids ages 7-14
- Report incidents, accidents, to senior staff; resolve conflicts between participants; communicate with parents about the program

Cabin Leader | Boys and Girls Club - Camp Potlatch | Summer 2025

- Supervised groups of campers aged from 7 years old to 15 years old; Taught and lead canoe, kayak, archery lessons
- Led campers to wilderness overnight camping, open water wilderness canoe camping, organized shelter, cooked meals, ensured safe environment; built a makeshift tarp out of 2 garbage bags, and slept under it during a rainstorm
- Acted as a positive role model, demonstrated respect, fairness to the campers, taught them same skills towards each other
